

“IT’S A FACT”

NUMBER 23:

Do you know that the **average work commute** in the St. Louis region **is less than 25 minutes**? That’s the **second fastest of the country’s top 20 metro areas**.^{*} Which means you can get around town to live, work, and play without a lot of hassle. And imagine what it will be when a brand new **I-64 is completed this December!** It’s no secret **we have it good here**. And it’s ok to brag about St. Louis.

*American Community Survey — 2007, U.S. Census Bureau, 2008
